

SLIDING PATIO DOORS

The Inspire Series sliding patio door combines cutting-edge design with outstanding performance, resulting in a product that requires minimal maintenance and is easy to operate.

Crafted entirely from vinyl, this sliding patio door is designed to withstand various outdoor elements. It features a sleek, low-profile sash and frame, fully welded joints for enhanced structural strength, and offers a broad expanse of glass for clear, unobstructed views. The heavy-duty weatherstripping around the full perimeter, paired with a deep-pocket interlock, provides superior protection against air infiltration, enhancing energy efficiency.

Equipped with concealed, adjustable tandem rollers for smooth and effortless operation, this door is recognized as one of the strongest, most fluid, and energy-efficient choices available.

- Frame allows for left or right-hand door operation.
- Available in new construction and replacement configurations.
- For ease of new construction installation, it comes with an integral pre-punched nailing fin.
- Double pane, insulated glass — increases energy efficiency.
- Internally aluminum reinforced stiles adds to the strength of the unit.
- Designed to accommodate multi-point lock hardware.

- The sash is exterior glazed to improve weatherability. Frame can be direct gl for transom and sidelite needs.
